PRODUCT DESCRIPTION

Designer: Ryosuke Fukusada

Axolight Pivot LED Pendant

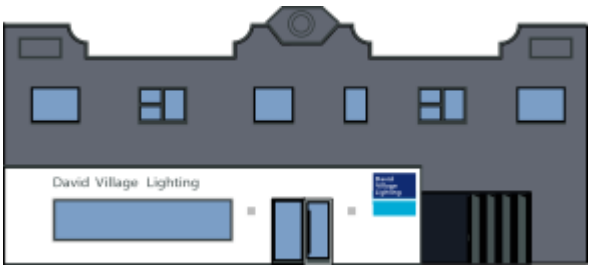

Designed by Japanese designer Ryosuke Fukusada, the Axolight Pivot Pendant Light draws inspiration from Hishaku, a traditional wooden or bamboo ladle used to cleanse yourself before entering a shrine or place of worship. Pivot features a sleek silhouette with clean lines and is available in three neutral finishes, allowing it to adapt to a range of modern interiors.

The Axoligth Pivot produces a focused downlight, making it perfect for spaces such as above countertops, kitchen islands and dining spaces. The combination of aesthetics and functionality allows Pivot to make a statement no matter where it is positioned and it can be displayed individually or in clusters and linear rows. The Pivot pendant is designed to be compatible with the Pivot system and to achieve high visual comfort. The beauty of Pivot lies in the infinite styling and lighting possibilities, all of which can be created starting from a single light source.

Please Note: this pendant light can be supplied with a ceiling or recessed canopy.
