PRODUCT DESCRIPTION

Designer: Tom Dixon

Tom Dixon Melt Fat Cone Table Lamp

The Tom Dixon Melt Fat Cone Table Lamp is a unique lighting solution, resembling the silhouette of the Melt Portable with its conical base, but featuring a cable with an in-line dimmer that allows you to adjust the intensity of the illumination. The abstract shade of the Fat Cone Melt is crafted through a process of blow moulding and vacuum metallisation, resulting in a lamp that resembles molten glass and produces a mesmerising lighting effect. When turned off, the shade appears mirrored but then, once illuminated, reflects the light to produce a glowing, melting effect.

This LED Table Lamp is available in four unique colours, three metallics; Smoke, Copper or Gold and also in a more subtle Opal finish. The Melt Fat Cone Table Lamp is an excellent addition to living rooms, dining spaces and bedrooms to create a cosy ambience. It can also be utilised in groups in larger commercial spaces such as restaurants, hotels and bars.

In celebration of the Melt's ten-year anniversary, Tom Dixon has released a bronze variant of the iconic shade. This new finish blends seamlessly into a range of decors and adds a sophisticated element to any room.

PRODUCT SPECIFICATION

Light Source: 6W, 3000K, 800 Lumens
