PRODUCT DESCRIPTION

Designer: Zoë Mowat

Lambert & Fils Isle 02 LED Suspension

Released in 2023, the Lambert & Fils Isle Suspension is a sculptural lighting solution, designed by ZOE Mowat. Minimalistic but technologically advanced, the Isle features a sandblasted and frosted tubular glass diffuser which houses an LED module, this tube sits atop multiple solid-stone and aluminium pedestals and is suspended in mid-air - granting the illusion of a bridge of light. The marble used for the Isle suspension is sourced from Portugal and is available in six inviting finishes, similarly, the blocks can also be supplied in polished aluminium. The location of the blocks can be manoeuvred along the diffuser, with the one on the left-hand side remaining in place to house the electrical components.

With the Isle LED Suspension, you can easily create a customised installation but the brand also supplies several pre-configured designs. The lighting solution can be installed singularly or in larger configurations, in clusters or atop each other for areas with higher ceilings such as stairwells. Isle provides an evenly diffused illumination, with a stripped-back but not simplistic style and can adapt to almost any contemporary interior.

Dali dimming is available upon request and the colour temperature can be manually adjusted after installation. Please [contact us](#) for more information.

PRODUCT SPECIFICATION

Light Source: 35W, 2700K, 1877 Lumens

IP Code: 20

Dimming: Dimmable via 0-10V/Mains Phase/Dali dimming systems. Please consult your electrician, additional wiring may be required on-site.

Dimensions: Isle 02A:

Width: 114cm
Depth: 7.6cm
Body Height: 11cm

Isle 02B:

Width: 114cm
Depth: 7.6cm
Body Height: 18cm

Minimum Drop Height: 30cm
Maximum Drop Height: 224cm

Isle 02A:

Isle 02B:
