PRODUCT DESCRIPTION

Designer: Lambert & Fils

Lambert & Fils Silo 14 LED Chandelier

The Lambert & Fils Silo Chandelier is a striking metaphor for duality, utilising high-quality materials available in a range of finishes. The impactful installation makes a statement in contemporary spaces, providing an abundance of light with a theatrical touch. The structure consists of a range of Silo fittings in multiple sizes, combining two, three and four tubes - all fitted with LED technology.

The bold lighting solution is an example of intricate contemporary design and allows you to choose between either a downlight, an upright or an uplight-downlight that produces a more even dispersion. Each light source utilises polycarbonate diffusers to prevent glare and any harshness for a relaxing ambience that can be used in a variety of interiors. It is a powerful luminaire for entryways, stairwells, hotel lobbies, reception areas and large dining spaces in restaurants.

Dali dimming is available upon request. Please contact us for more information.

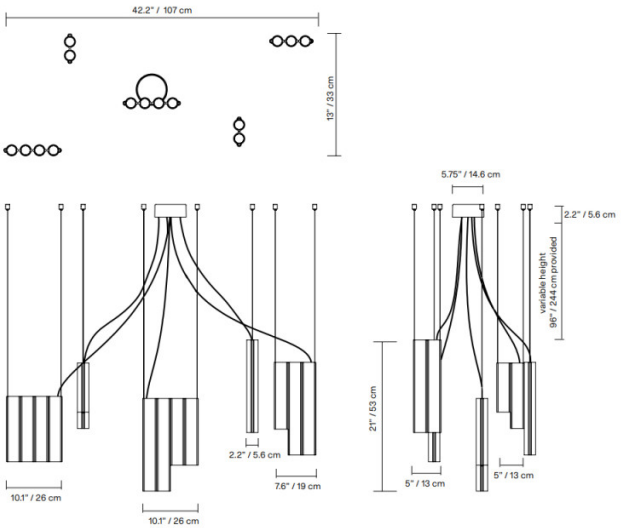

PRODUCT SPECIFICATION

Light Source: 44.5W, 2700K , 1272 Lumens

IP Code: 20

Dimming: Dimmable via mains phase dimming.

Dimensions: Full Width: 107cm
