PRODUCT DESCRIPTION

Designer: Davide Groppi

Davide Groppi QuiQuoQua LED Pendant

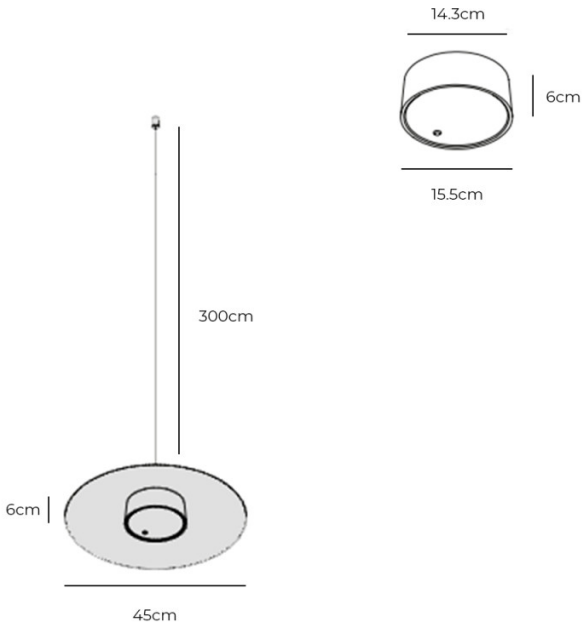

QuiQuoQua LED Pendant was designed in 2017 by Davide Groppi. QuiQuoQua's unique light source is connected to a dish magnetically, which is attached to a barely visible steel cable and hung from a 300cm drop from the ceiling. Operated by a rechargeable battery, QuiQuoQua takes light where it is needed, without the limitation of electric wires. The delicate elegance of the effect is impressive. Each light source offers approximately 8 hours of battery life.

Davide Groppi QuiQuoQua LED Pendant provides an even dispersal of downward light, perfect for above a table or dining area in both commercial and residential settings. The minimalistic structure is a testament to the careful attention to detail and commitment to quality that went into its creation. The attachable light source is matte black whilst the shade is a matte white colourway which provides a monochrome effect. The portable light source has a USB charger cable included in the purchase.

Please note: A sloped ceiling suspension kit can be purchased separately if needed, please contact us for more information.

PRODUCT SPECIFICATION

Light Source:	5W 3000K 345 Lumens
IP Code:	20
Dimming:	Integrated on/off dimmer on the product
Dimensions:	Shade: Ø45cm Depth: 6cm Drop height: 300cm Charger Cable: 80cm
