Lambert & Fils Beaubien Wall Light

Beaubien Wall Light was designed in-house at Lambert and Fils. Beaubien Wall Light has a strong black structure which bends in and out of spaces, moving effortlessly between simplicity and embellishment. The lamp's structure is connected with round and cubic brass connectors and also adds a rich colour contrast to the rods. Beaubien Wall Light has an industrial and graphic aesthetic which is infused with a collection of influences, ranging from traditional Chinese screens to the Memphis movement.

Situated in both a residential or commercial establishment, Beaubien Wall Light is a sophisticated design with a high-end finish to make it stand out and add a touch of elegance to any interior. The unique structural design is a testament to its remarkable craftsmanship by the experts at Lambert & Fils and a bold lighting solution for any contemporary environment.
