PRODUCT DESCRIPTION

Designer: Cluzel & Pluchon

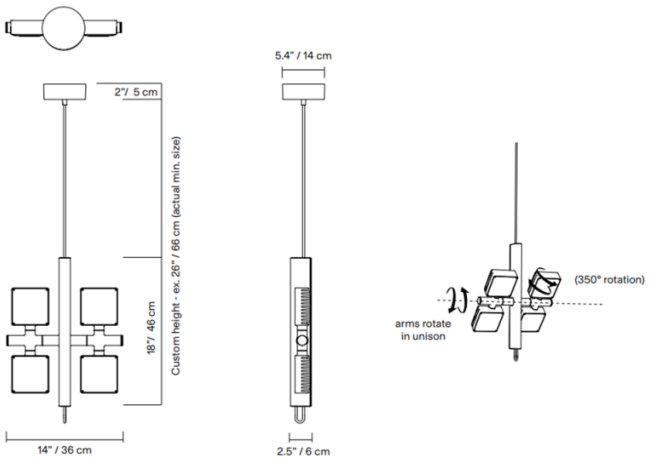

Lambert & Fils Dorval LED Pendant

Lambert & Fils Dorval LED Pendant was designed by Cluzel & Pluchon and won the Interieur Award in 2018. The Dorval Pendant is a unique contemporary yet vintage industrial design blend. Inspired by airport runway lights and the classic Motobecane French moped, this lamp exudes boldness and intrigue. With its layered history, Dorval LED Pendant provides an immediate invitation to light.

Dorval LED Pendant has four square light sources that utilise LED technology and rotate at 350 degrees to direct light where needed, providing bright and clear illumination. The bold Dorval Pendant is available in seven select colourways which can be featured in any commercial or residential establishment as a centrepiece above a dining table to evoke conversation and stories. Dorval LED Pendant can be purchased as part of the **Dorval Collection**.
