## PRODUCT DESCRIPTION

**Designer:** Lambert & Fils

## Lambert & Fils Hutchison LED Suspension

Lambert & Fils designed the Hutchison LED Suspension in January of 2024. Thoughtfully designed, the Hutchinson LED Suspensions is a structure of soft curves and hard lines which create a bold visual feature above a kitchen or dining room table. Independently, this suspension is defined as a classic and decorative pendant, however, in a cluster they evoke the iconic patterns of Middle Eastern archways and Roman terracotta roofs. The minimalistic yet bold design is a testament to the careful attention to detail and commitment to quality that went into its creation.

Hutchison LED Suspension is available in five striking colourways which create a stylish aesthetic in both commercial and residential environments. Each suspension is fitted with modern LED technology to emit direct downward light and create an even illumination to any décor.
