PRODUCT DESCRIPTION

Designer: Jamie Wolfond

Muuto Set LED Table Lamp

The Muuto Set Table Lamp is an exceptional blend of industrial and sculptural design, a 2023 addition to the brands catalogue it not only makes a statement in any interior but also invites user interaction. Designed by Jamie Wolfond the Set Table Lamp generates a functional uplight that is then reflected from the bottom of the circular shade above. Set features an adjustable shade, facilitated by threads on the body, that manoeuvres up and down the lamp's stem in order to personalise the angle and light intensity. Similarly, the user can also control the intensity of the illumination via the in-line dimmer fitted on the cable of the table lamp, the result is a wonderful indirect glow that provides an inviting atmosphere.

This LED Table Lamp boasts a sleek aluminium finish and is a beautiful addition to an array of contemporary interiors and provides the perfect lighting output for windowsills, sideboards, large bookcases, coffee tables and side tables. No matter where you decide to display the Muuto Set Table Lamp it is sure to make a bold statement and become a distinctive centrepiece.
