PRODUCT DESCRIPTION

Designer: TAF Studio

Muuto Fine LED Ceiling / Wall Light

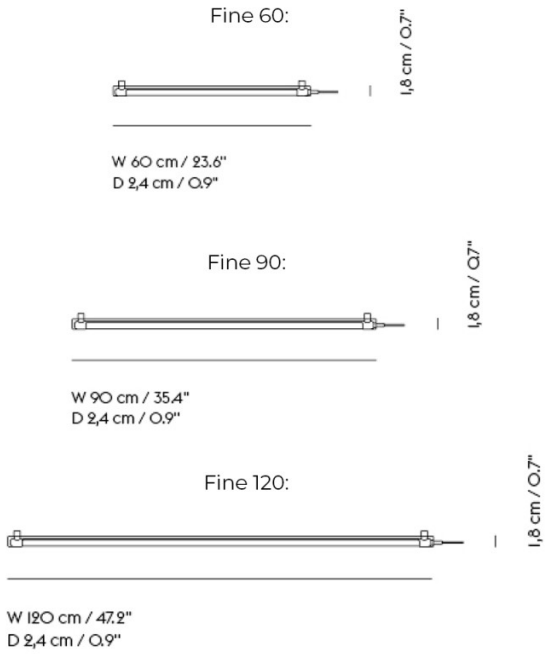

The Muuto Fine Ceiling/Wall Light is a versatile minimalistic design by TAF Studio, a modern take on a classic tubular light with an industrial character. Fine consists of an aluminium structure with refined detailing for a truly elegant expression. TAF Studio wanted to create a lighting solution that only inhabited the most crucial elements, the result being a sleek strip of light that can adapt to a range of interiors.

Available in three sizes, each luminaire features an in-line dimmer on the cable, allowing you to personalise the lighting output and therefore the ambience that the Fine Ceiling/Wall Light creates. This lighting solution can be installed on either ceilings or walls and can be displayed individually or in groups and clusters. It truly makes a statement in living areas, kitchens, dining spaces and even bedrooms. Similarly, the Fine Ceiling/Wall can be utilised in commercial spaces - especially in the hospitality sector.

Please Note: This lighting solution is fitted with a cable and plug, so must be installed near a socket.
