PRODUCT DESCRIPTION

Designer: Tom Dixon

Tom Dixon Press Mini LED Surface Light

A smaller version of the classic **Press Surface Light**, the Press Mini still provides your space with functional ambient lighting, while remaining unobtrusive. The Tom Dixon Press Mini Surface Light is more compact in size, lighter in weight and designed to be clustered in multiples. The spherical form is crafted from ribbed glass and includes three different coloured metal dome caps - silver, gold and black. The glass diffuses the LED illumination and results in a glare-free warm glow.

The Press Mini Surface is a gorgeous addition to contemporary interiors, especially hallways, kitchens, dining spaces and entryways. It can also assist in optimising commercial settings, especially in hospitality - such as restaurants, bars hotels and reception areas.

The Press Mini Surface is fitted with a silver metal dome cap, with easily attachable/removable gold and black caps in the box.
