PRODUCT DESCRIPTION

Designer: Tom Dixon

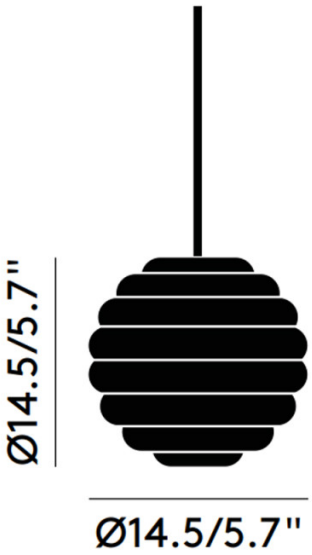

Tom Dixon Press Mini Sphere Pendant

The Tom Dixon Press Mini Sphere Pendant is a smaller variation of the original **Press Pendant**, still harnessing the iconic ribbed glass shade reminiscent of shipping buoys and children's toys. The light source is concealed withing the sphere and projected out into the room, producing a soft and even glow, diffused by the glass.

The Press Mini Sphere Pendant was designed to be displayed in clusters at varying heights, generating an elegant installation. It is a sleek addition to stairwells, entryways, kitchens, dining spaces and even bedrooms. Similarly, it can be used in commercial environments as well as just residential spaces.
