PRODUCT DESCRIPTION

Designer: Tom Dixon

Tom Dixon Press LED Table Lamp

The Tom Dixon Press LED Table Lamp joined the Press collection in 2024, offering a solid weighted lighting solution that harnesses the timeless design seen throughout the range. The Press Table Lamp utilises thick transparent glass that is shaped with smooth ridges and houses an LED light source, the result is a dispersed illumination. Press includes a metal dome cap that can be interchanged depending on the customer's colour preference - silver, gold and black, allowing the lamp to suit a range of interior styles.

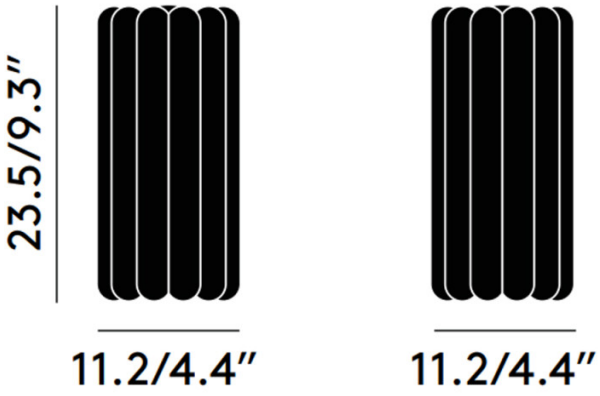

When turned off the Tom Dixon Press Table Lamp showcases its high-quality transparent glass, and when illuminated the light takes on a warm effect, diffusing the ambient glow. Thanks to the in-line dimmer fitted in the cable, the Press Table can be easily dimmed to suit your environment and create the ambience that suits your needs best. The Press LED Table Lamp is an excellent way to brighten up your living room, hallway, dining room and bedroom - generating a cosy and inviting atmosphere.

The Press Table Lamp is fitted with a silver metal dome cap, with easily attachable/removable gold and black caps in the box.

Please Note: While some images display a lack of wires, the Tom Dixon Press Table Lamp is fitted with a cable and plug.
