PRODUCT DESCRIPTION

Designer: BCXSY

Moooi Tubelight LED Suspension

The Moooi Tubelight Suspension light was designed by BCXSY, with the aim of redefining traditional fluorescent lights. The structure consists of a powder-coated black metal bar, with silicone tubing appearing to drape effortlessly from the form. Tubelight is available in two variants, with a 1.5-meter fixed LED tube or a 5-meter flexible LED tube. The 1.5-meter version boasts a fixed arc. With the 5-meter version, you can shape the flexible tube as desired.

This contemporary lighting solution offers an elegant sculpture to your interior, resembling a piece of art. It is a beautiful way to illuminate dining tables, kitchen islands, workspaces and counters. Whether used in residential or commercial spaces, the Tubelight is guaranteed to make a statement and immediately catch your eye. Its adaptable design seamlessly integrates into any space, offering both style and functionality.

Please Note: The Moooi Tubelight is supplied with a Moooi wireless dimming switch, enabling you to have full control through a Bluetooth-enabled dimming device. Please contact us for more information.
