## PRODUCT DESCRIPTION

**Designer:** Erwan Bouroullec

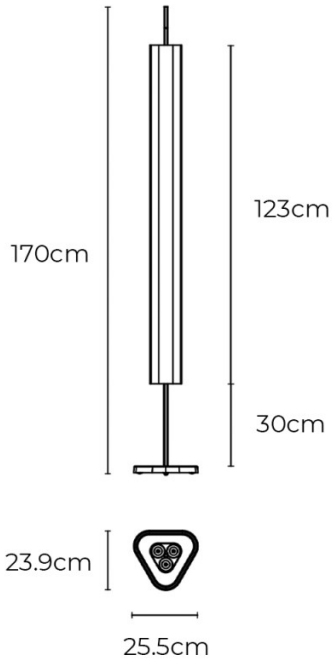

### Flos Emi LED Floor Lamp

The Flos Emi LED Floor Lamp was designed by Erwan Bouroullec in 2024. The design comes from grouping three light modules inside compact, linear extrusions that give the lamp a triangular shape. Its unique design is a testament to the careful attention to detail and commitment to quality that went into its innovation. Using modern LED technology, Emi casts an atmospheric glow in both upward and downward directions, which can be controlled together or independently, making it an ideal lighting solution for any room in either residential or commercial establishments. The refined design and high-end finish of the Emi LED Floor Lamp make it stand out and add a touch of elegance to any interior.

The Emi LED Floor Lamp is a dynamic visual feature that comes in four stunning colours and illuminates the surrounding space without directly revealing the light source. The colours include deep green, deep red, deep blue and off-white. The **Emi Collection** also includes a table lamp version which can be matched alongside the floor lamp.

## PRODUCT SPECIFICATION

| | |
|---|---|
| **Light Source:** | 49.5W, 2700K, 3915 Lumens |
