PRODUCT DESCRIPTION

Designer: BIG

Artemide Architectural La Linea LED Light

La Linea is a continuous flexible LED tube that lets you draw light in three dimensions. Twist, loop or run it straight along walls and ceilings to create lines, soft curves or overlapping patterns. The 3000K LED with CRI 95 sits within a 4cm silicone body for diffuse, comfortable illumination.

Choose 2.5m or 5m modules for ceiling, wall or recessed trim and trimless installs. For precise suspended configurations, the Backbone structure supports linear or curved compositions. With IP20 or IP65 protection and App, Push or DALI control, La Linea suits gallery routes, shopfront windows, hotel lobbies and terraces as well as residential feature spaces.

As the official UK distributor, we can support you with layouts, accessories and drivers. Contact us at artemide@davidvillagelighting.co.uk.
