## PRODUCT DESCRIPTION

**Designer:** Klaus Begasse

### Artemide Architectural Cuneo Wall Light

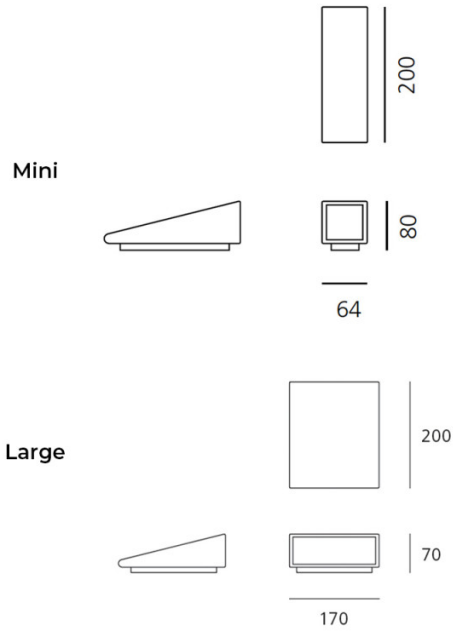

Cuneo is a versatile exterior luminaire for walls or ground. Mount it as an up light for facade accent or as a down light for a smooth wall-washer effect. On the ground it handles path and driveway illumination with a compact footprint. The die-cast aluminium body with satin methacrylate diffuser gives a soft, controlled distribution with minimal glare.

Choose Mini or Large to suit scale, and select from Anthracite gray, Gray/white or Rust finishes. The IP65 rating supports year-round outdoor use, and the integrated 3000K LED provides reliable output for residential and commercial projects. Install individually for markers or repeat in a rhythm for wayfinding and identity.

**As the official UK distributor, we can support you with the Artemide configurator and specification. Contact us at artemide@davidvillagelighting.co.uk.**
