PRODUCT DESCRIPTION

Designer: Jonas Wagell

AGO Alley Wall LED Light

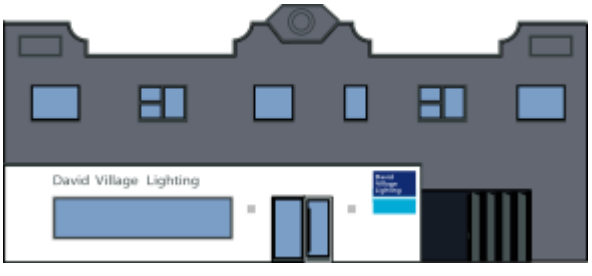

AGO Alley Wall LED Light was created by designer and architect Jonas Wagell. Alley Wall LED Light is a minimalistic wall light that adds bright colour to any area. The six bold colourways can be featured in both commercial and residential spaces. Each wall light is constructed from an opaline glass globe attached to a powder-coated aluminium shade. The rich materials and subtle use of angles and curves seamlessly blend playfulness with sophistication. Alley Wall LED Light can be displayed alone or in a sequence for an aesthetically pleasing feature.

Alley Wall LED Light is an example of intricate contemporary design that provides a comfortable lighting solution that is ideal for hallways or stairwells. The **Alley collection** also includes a table lamp and a pendant, which elevates surrounding areas when featured together.
