PRODUCT DESCRIPTION

Designer: Nordlux

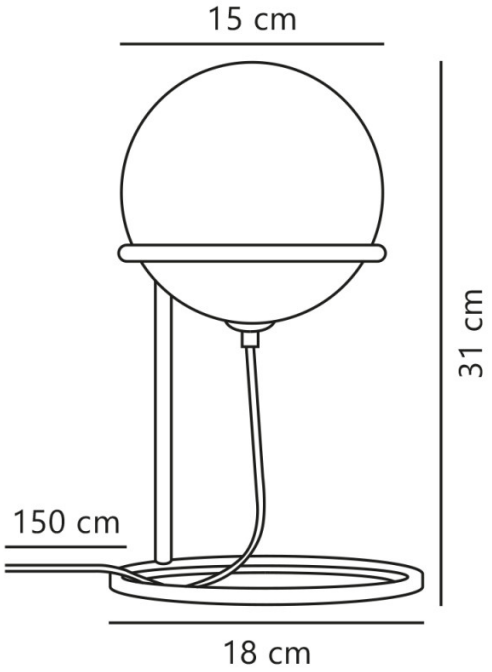

Nordlux Wilson Table Lamp

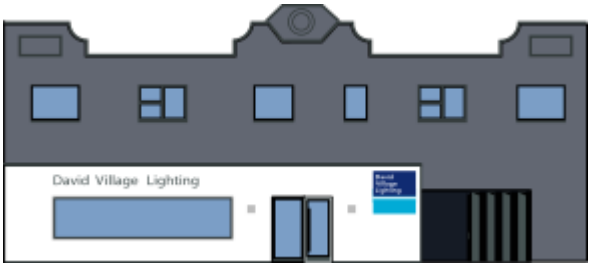

Created by their in-house design team, the Nordlux Wilson Table Lamp consists of a sturdy but unobtrusive metal structure that houses a frosted glass globe diffuser. Wilson creates a cosy and inviting atmosphere whilst still providing functional lighting, with the diffuser creating a soft and gentle glow that is evenly dispersed across the space. The diffuser appears to almost float in mid-air when viewed at certain angles, adding a creative silhouette to your interior.

Due to the black finish, the Nordlux Wilson can adapt to a range of modern interiors and is especially striking in living rooms, bedrooms and entryways. It can also be utilised in larger commercial spaces in multiples, such as in restaurants, bars and hotels. Nordlux also offers a **Wilson Floor Lamp**, that can be paired to create a cohesive interior.
