PRODUCT DESCRIPTION

Designer: Nordlux

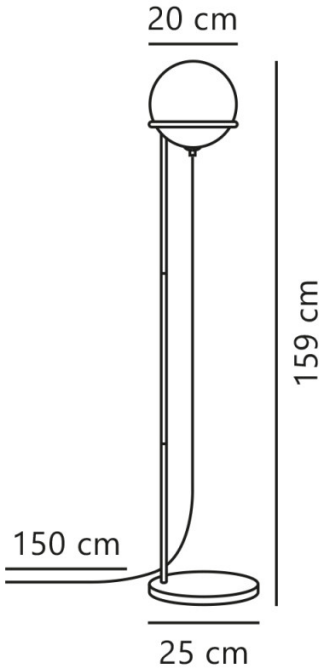

Nordlux Wilson Floor Lamp

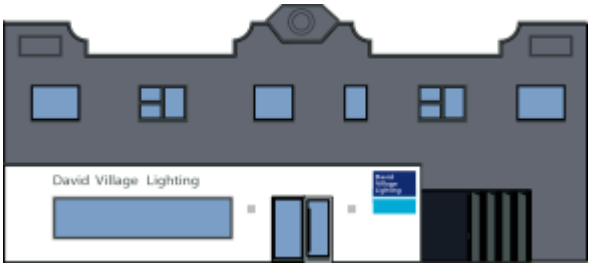

The Nordlux Wilson Floor Lamp is a larger variation of the **Table Lamp**, consisting of the same slender metal frame that supports a spherical glass diffuser. Wilson radiates a gentle light that spreads throughout the room, generating a cosy ambience that can be operated in a variety of settings both residentially and commercially. It is especially useful in bedrooms, living areas, dining spaces, reception areas and entryways.

Although non-dimmable, the Wilson Floor Lamp features an in-line switch on the cable which allows you to easily turn the light on and off. Due to the seek black finish of Wilson, it can easily adapt to an array of personal styles whilst adding a unique and geometric silhouette to your room. It can be displayed individually, in multiples or alongside the Wilson Table Lamp for a coordinated interior.
