AGO Balloon LED Pendant

AGO Balloon LED Pendant was designed by Studio-Word. The Balloon LED Pendant is a colourful, versatile light inspired by balloon hats, which can be featured as a centrepiece to evoke conversation and stories within its décor. This minimalist pendant is available in three colourways: green, charcoal and eggwhite. Balloon LED Pendant can be displayed individually or in a cluster in both commercial or residential settings. Each pendant is constructed from a painted steel structure which houses the orb-shaped LED light source inside. Hung from a 300cm drop cable, the Balloon LED Pendant provides bright yet, comfortable illumination. The bold colours and subtle curves seamlessly blend elegance and playfulness.

Balloon LED Pendant is a minimalist design that allows the shade to stand out in any room, whether it's a hallway, a lounge or above a kitchen island. The [Balloon collection](#) is also available as a table lamp, which when combined, creates a seamless and aesthetically pleasing display.
