AGO Balloon LED Table Lamp

AGO Balloon LED Table Lamp was designed by Studio-Word. Balloon LED Table Lamp is a fun and unique design inspired by balloon hats. The structure has been angled upward for atmospheric illumination which can be featured in both a commercial or residential setting. The minimalistic design has been paired with six bold colourways. Each table lamp is constructed from a painted steel structure which houses the globe-shaped LED light source inside. Provided with a 250cm cable, the Balloon LED Table Lamp can be featured on bedside tables or in an office for a comfortable lighting solution. The vibrant colours and gentle curves effortlessly combine sophistication and fun.

Balloon LED Table Lamps' striking visual feature is a testament to its remarkable craftsmanship by the experts. The [Balloon collection](#) also includes a pendant, which, when paired with the table lamp, creates a stunning display.
