PRODUCT DESCRIPTION

Designer: Anker Studio

Design For The People Taido Table Lamp

An abstract design by Anker Studio, the Design For The People Taido Table Lamp combines geometric forms with sophisticated colour options. Taido boasts a conical metal structure that houses an angled round shade, the illumination is projected upwards and reflected off of the shade - creating an indirect warm illumination. The shade can be adjusted to easily direct the light output, personalising the ambience and creating an atmosphere that is perfect for you.

The Taido Table Lamp is a sophisticated design, in a brown finish, which adds a touch of sophistication to modern interiors. This lamp is a beautiful addition to living rooms, dining spaces, hallways and entryways. It can also be used in commercial settings, especially in the hospitality industry, such as hotels, restaurants and bars.
