Design For The People Beau Pendant

The Design For The People Beau is a linear pendant light, available in two sizes and boasting a sleek black finish. Designed by Sofie Lefevre, the Beau Pendant features a slim silhouette that can adapt to a range of interiors and generates a focused warm downlight that can be dimmed if used with a dimmable bulb. The metal structure is suspended by a textile cable, offering an adjustable height that can be chosen upon installation, also in a black finish to create a cohesive design.

The minimalistic design of the Design For The People Beau Pendant results in a beautiful luminaire for above a dining table or kitchen counter. Similarly, it can be utilised in commercial spaces above shop counters or desks in reception areas. This pendant light can be installed individually or in multiples in a row for larger spaces or longer dining areas.
