PRODUCT DESCRIPTION

Designer: CTO Lighting

CTO Lighting Artes LED Wall Light

Artes LED Wall Light was designed by the expert's in-house CTO Lighting. Artes is a beam of light combined with premium materials such as bronze, satin brass and honed alabaster creating an elegant pendant. This classical-looking wall light can be displayed independently or in a decorative cluster for an eye-catching feature. The rich materials and minimalistic use of angles seamlessly blend elegance and sophistication which can be featured in both a commercial or residential environment. Rated with an IP of 44, this wall light can be fitted in bathrooms.

Add an affluent characteristic to any décor with this alabaster shade and metal structure which are available in two colourways: bronze or brass. The **Artes collection** also includes two different pendant versions and a floor lamp, which, when combined together create a seamless array.

Please Note: Due to the natural variations in the glass diffuser, the light output of each product will vary.
