PRODUCT DESCRIPTION

Designer: CTO Lighting

CTO Lighting Ivy Suspension

CTO Lighting Ivy Suspension was inspired by nature and organic growth, with ivy plants bending and taking shape towards sunlight and reaching out to all corners of the wall. Casting a wide pool of ambient light, Ivy Suspension is available in three different configurations and two colourways, providing a wide variety to suit your space best. The striking design is a testament to the remarkable craftsmanship of the experts, which allows the versatile Ivy Suspension to be featured in both commercial and residential environments.

Ivy Suspension globe shades are available in clear grey or white opaline. Each configurational structure is suspended by a curved brass rod, providing a seamless blend of contemporary and classical design. Displayed above a stairwell, kitchen table or island, Ivy Suspension creates a stunning visual feature.
