PRODUCT DESCRIPTION

Designer: CTO Lighting

CTO Lighting Cascata Chandelier

A decorative and dramatic lighting solution, the CTO Lighting Cascata Chandelier draws inspiration from moving bodies of water and is formed of a metal structure and suspension with a sculptural glass shade. Each panel of glass is unique and crafted by skilled artisans, who carefully position the cut glass to achieve the correct organic profile with a wave-like motion and watery texture. Crushed glass is added to the material to generate a gradient appearance. This chandelier is available in three finishes (Brass, Bronze or Nickel) - each with a matching ceiling canopy.

The Cascata Chandelier is crafted with no visible fixings and the 3-arm shape is also designed to work above round and rectangular tables. The LED technology is fitted into the metal arms and is cast downwards through the glass shade, the result is a warm and inviting illumination which is evenly distributed and creates beautiful ambient lighting above dining tables and coffee tables.

Please Note: Due to the natural variations in the glass diffuser, the light output of each product will vary.

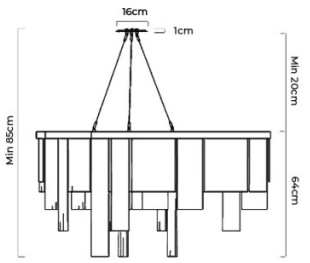

PRODUCT SPECIFICATION

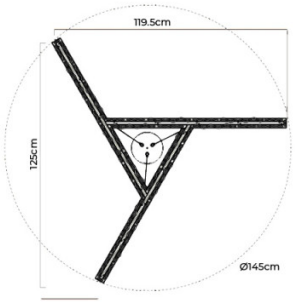

Light Source: 50W, 2700K

IP Code: 20

Dimming: Dimmable with trailing edge dimming.

Dimensions: Ø: 145cm
Shade Height: 64cm
Full Height: 85cm
Minimum Drop: 21cm
Ceiling Canopy: Ø16cm
