PRODUCT DESCRIPTION

Designer: CTO Lighting

CTO Lighting Gaia Wall Light

CTO Lighting Gaia Wall Lights have been thoughtfully designed with precision engineering, enabling them to project light from the wall and illuminate the surrounding space. The carefully considered detail, combined with the handblown glass shades, gives Gaia Wall Light its distinct elegance and sophistication. Gaia Wall Lights have a compact nature which makes them versatile for use in almost any scale of interior, particularly suited for spaces with a narrow profile. Gaia Wall Lights can be used in multiples for creative placements and can be mounted facing upwards or downwards.

Gaia Wall Lights have two structural and two glass orb colourways, providing great variety to match your space. Whether it is a residential or commercial establishment, Gaia Wall Lights' refined design and high-end finish make it stand out and add a touch of grace to any interior.
