PRODUCT DESCRIPTION

Designer: Tala Lighting

Tala The Muse 1.0 Portable Lamp

The Tala The Muse Portable lamp was a collaboration with British colour experts Farrow & Ball, inspired by classic gas lanterns and utilising seven comforting finish options. This portable lamp combines a classic lantern silhouette with modern technology and premium materials. Crafted from borosilicate glass and aluminium, The Muse Portable offers up to 24 hours of battery life and an integrated rotary dimmer that allows you to easily alter the ambience with just a simple movement. This dimming system uses Dim To Warm technology, allowing you to not only adjust the brightness but also the colour temperature.

The Muse Portable Lamp is also IP44-rated, making it suitable for indoor or outdoor use due to its weatherproof nature. This lighting solution has been crafted so each component is replaceable, having a positive impact on the environment whilst extending its lifetime. Use the Tala The Muse Portable Lamp in areas of relaxation such as a bedroom, living room, dining space, reading nook and even decking areas and patios for cosy summer nights.

Please note that the solid brass edition is not a Farrow & Ball finish.

PRODUCT SPECIFICATION

Light Source:	1 x Max 6W E27 LED Tala Muse Bulb (included)
IP Code:	44
Dimming:	Integrated dimmer on the product.
Dimensions:	Shade: Ø12.5cm Height: 33.8cm
