PRODUCT DESCRIPTION

Designer: Tala Lighting

Tala Voronoi II Pendant

The Voronoi II Pendant is a design by Tala who drew inspiration from nature and the patterns found within leaves and forest canopies. This decorative pendant light not only catches your eye and adds an artistic touch to your space but it also provides a calming ambient illumination that is soft and layered thanks to the glass's siron tint finish. This glass is mouth-blown by artisans and utilises an LED filament which wraps around the central core.

Available in four finishes, choose between Brass, Graphite, Oak or Walnut pendant fixtures, all of which add a touch of elegance to your interior. A beautiful way to delicately illuminate living rooms, kitchen islands, bedside tables and dining areas. Display individually or in multiples or clusters, similarly choose between their pre-selected configurations of either **three** or **nine** pendants fitted to a shared canopy.
