PRODUCT DESCRIPTION

Designer: Tala Lighting

Tala Alumina Table / Wall Light

Boasting a modern design, the Tala Alumina Table/Wall Light is crafted from high-quality and lightweight aluminium. It draws inspiration from the theories and concepts of Bauhaus, specifically the White City in Tel Aviv. Alumina can be used as a table lamp or wall light to offer multiple display options and the large spherical bulb produces a calm ambient illumination. Thanks to the Dim-to-Warm technology that the Tala Alumina utilises, you can easily control the lighting output and the lamp's colour temperature.

The Tala Alumina Table/Wall Light is a multi-functional lighting solution that is suitable for almost any interior. When fitted to the wall, Alumina is easy to install and requires no hardwiring, featuring a cable and plug instead. The five colourways allow the lamp to adapt to a range of personal styles and the user can easily adjust its position and manoeuvre it to suit their activity or desired ambience. Alumina was Tala's first exploration into non-organic materials and by finding a form suitable for powder coating, they were able to apply five on-trend colours for customers to choose from.

Please Note: The glass globe housed in the base of the Tala Alumina is a replaceable Sphere IV LED Tala bulb and not a diffuser.

PRODUCT SPECIFICATION

Light Source: 1 x Max 25W E27 LED (included)**IP Code:** 20**Dimming:** Integrated dimmer on the product.**Dimensions:** Height: 24cm
Width: 15cm
Cable Length: 300cm
