PRODUCT DESCRIPTION

Designer: Tala Lighting

Tala Kilter Wall Light

The Tala Kilter Wall Light is a beautiful combination of architectural and decorative lighting. The silhouette consists of a linear S14D light source fitted to a circular wall mount available in either Brass, White or Dark Grey. Named in reference to the delicate confluence of the linear light source and central pivoting fixture, Kilter embraces geometric forms and helps you achieve visual harmony in your interior. The lightly frosted bulb subtly exposes the internal filament when illuminated. The result is a warm functional illumination that generates a peaceful ambience.

The Kilter Wall Light is available in two lengths and three finishes and can adapt to a wide range of settings. Thanks to the IP44 rating it can be used in humid or damp environments such as bathrooms and wet rooms. Kilter can be displayed individually or in pairs on either side of a mirror or vanity. Similarly, it is an elegant lighting solution for kitchens, hallways, living rooms and dining spaces.

Please Note: The Tala Kilter Wall Light is supplied with a 2700K bulb, but a 2200K bulb is available. Please [contact us](#) for more information and pricing.
