PRODUCT DESCRIPTION

Designer: Tala Lighting

Tala Basalt Triple Pendant

Designed to make a statement, the Tala Basalt Triple Pendant combines three hexagonal pendants which are a staple in the collection. These pendants are crafted from either sand-casted brass or wax-casted stainless steel - both utilising a mouth-blown borosilicate glass bulb. The result is a truly unique lighting solution which is not only a beautiful centrepiece but also provides relaxing ambient illumination for your interior. Where in many designs the bulb is hidden by shades, the bulbs of the Basalt Triple Pendant are designed to be seen and celebrated.

The Tala Basalt Triple Pendant creates an intimate ambience which is ideal for spaces such as dining areas, living rooms, bedrooms and larger commercial interiors in the hospitality sector. The light source is easily dimmable to personalise the lighting output and thanks to the sandblasted finish of the glass bulb, the illumination is evenly diffused.
