PRODUCT DESCRIPTION

Designer: Tala Lighting

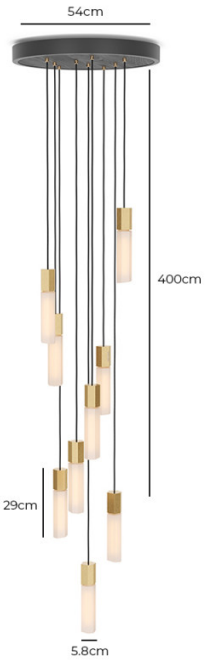

Tala Basalt Nine Pendant

The largest in the collection, the Tala Basalt Nine Pendant features nine hexagonal light sources which are fitted into solid metal pendant fittings. The pendant can be provided in either Brass or Stainless Steel with translucent mouth-blown borosilicate glass to create a dramatic statement light. The inspiration for this lighting solution came from the thousands of extruded basalt columns that make up the Giant's Causeway in Northern Ireland, creating an expression of nature's mathematical beauty.

The Basalt Nine Pendant Light is an elegant luminaire with an industrial edge, it can adapt to a range of modern interiors and suit an array of personal styles. Due to its size, it is a dramatic installation for entryways, atriums, stairwells, hotel lobbies and large reception areas. The pendant's warm glow elevates your room, with smooth dimming optimisation allowing you to customise the output to suit your needs.
