PRODUCT DESCRIPTION

Designer: Boris Klimek

Brokis Convex LED Wall Light

Designed by Boris Klimek the Brokis Convex Wall Light is an innovative creation that can be used in a variety of contemporary interiors. Convex is crafted from high-quality metal and Brokisglass a material exclusive to the brand which consists of combining wasted glass shards to form a new material. It provides a subtle ambient illumination which highlights the intricacy of the glass and results in a stained-glass effect.

The utilitarian design, which highlights the beauty and optical properties of the glass, is well suited to a broad range of applications in both residential and commercial spaces. The Brokis Convex Wall Light is available in two sizes, and can also be mounted on the ceiling. Choose from clear triplex opal, or a combination of clear triplex opal and grey triplex opal, where the darker fragments gradually transition to lighter towards the centre of the glass.

PRODUCT SPECIFICATION

Light Source: **PC1352:** 43W, 2700K, 4630 Lumens
PC1357: 75W, 2700K, 5152 Lumens
