PRODUCT DESCRIPTION

Designer: Bert Frank Design Team

Bert Frank Colt Hexagon LED Chandelier

The Colt Hexagon LED Chandelier was designed in 2024 by the in-house designers at Bert Frank. Each shade features a cast brass grill attached to opal diffusers to create a glare-free experience. Six linear shades positioned in the shape of a hexagon give this unique light its name. This elegant geometric chandelier refracts light both upwards and downwards, making it perfect for above a round dining table.

Bert Frank Colt Hexagon LED Chandelier has a customisable cable length, allowing this light to adapt to rooms with high ceilings. This industrial-style chandelier is available in three metallic colourways: antique brass, brushed brass and dark bronze. The extravagant design is a testament to the careful attention to detail and commitment to quality that went into its creation.

Please Note: Additional drop heights are available upon request. Please contact us for further information and pricing.
