PRODUCT DESCRIPTION

Designer: Zsuzsanna Horvath

Luceplan Illan LED Suspension

The Luceplan Illan LED Suspension is a sculptural lighting solution which is crafted from flexible plywood, cut by a laser into intricate strips which create a grain pattern. The design is courtesy of Zsuzsanna Horvath and focuses on sustainability combined with modern technology, the result is an ethereal, vibrant design with a strong emotional and theatrical impact.

Illan appears to float in the air and its lightweight silhouette makes a statement whilst remaining unobtrusive, the result is a calming installation and thanks to the integrated LEDs, this luminaire provides a calming illumination which is evenly diffused and easy to dim. Available in three sizes, the Luceplan Illan can be installed independently or in clusters of varying sizes for a dramatic display.
