PRODUCT DESCRIPTION

Designer: Jens Fager

Zero A Light LED Pendant

The Zero A Light LED Pendant Light, designed by Swedish designer Jens Fager in 2024, offers a contemporary take on pendant lighting with its clean lines and striking dual-tone construction. Its outer steel shade, finished in a high-gloss lacquer, contrasts elegantly with the matt-finished inner diffuser, creating a refined lighting effect. Thoughtfully designed, the A Light pendant provides both direct downward illumination and a gentle upward glow through the discreet slits in its upper shade, ensuring balanced and ambient lighting in any space.

Perfect for both residential and commercial environments, the A Light Pendant is available in white, black, and gold-plated finishes, each complemented by a matching 250cm cable for a seamless look. The built-in 10W LED module delivers 673 lumens at 3000K with a CRI of 90, offering high-quality illumination with excellent colour rendering. Featuring dimming compatibility, this pendant allows users to tailor lighting levels to suit their ambience needs. Whether suspended above a dining table, kitchen island, or in an office setting, the A Light LED Pendant brings a sophisticated yet understated presence to any space.
