PRODUCT DESCRIPTION

Designer: Pepe Fornas

Aromas Del Campo Mapi LED Suspension

The Aromas Del Campo Mapi LED Suspension is a creative and artistic expression, consisting of curved organic forms that resemble beads. The Mapi Suspension expertly combines a variety of colours, with opal glass diffusers used to break up the pigments and emit an evenly dispersed illumination.

Designed by Pepe Fornas, Mapi is available as either a vertical or linear suspension, allowing it to adapt to a range of interiors and suit various needs. This also means the luminaire can be fitted independently or in a larger installation combining the two fixtures. Display this decorative lighting solution in living rooms, dining areas, kitchens or in more spacious environments such as offices, hotel lobbies, restaurants, libraries, and professional foyers. With a wide range of glass finishes to choose from, you have the freedom to create a display that will beautifully fit into your décor.
