PRODUCT DESCRIPTION

Designer: Christian Juhl

HAY Drome LED Table Lamp

The HAY Drome Table Lamp was designed by Christian Juhl, a Danish product and furniture designer based in Copenhagen, and is defined by its distinct oval shape. The lamp's stretched elliptical form changes the perception of the lamp, depending on which angle it is viewed from, resulting in a unique accessory. This minimalistic lighting solution boasts an opal white finish which diffuses the concealed LED light source and produces an elegant ambient glow that is ideal for a range of settings.

Drome also features an in-line dimmer on the cable which allows the light output to be adjusted, ensuring you can generate the perfect atmosphere for your interior. Display the HAY Drome Table Lamp in living rooms, bedrooms, dining spaces and hallways to generate a calming ambience that helps you to unwind after a long day.
