PRODUCT DESCRIPTION

Designer: John Tree

HAY Cupola Clip Lamp

A sleek and minimalistic design by John Tree, the HAY Cupola Clip Lamp provides focused directional lighting, whilst taking up little space. The slender frame houses a rounded lamp head that can be rotated 360° and a clamp base that allows you to save space on your desktop without having to sacrifice functionality. Cupola is crafted from durable aluminium with a natural anodised finish, adding an industrial touch to your space whilst exploring the possibilities of providing optimal movement using minimal mechanisms.

The Cupola Clip Lamp is an excellent addition to an office or workspace, while also working beautifully as a reading light in living rooms and bedrooms. It can also be attached to shelves or bookcases to create distinctive accent lighting. An in-line on/off switch makes the light easy to control, while the rotatable head lets you choose between direct and indirect illumination.

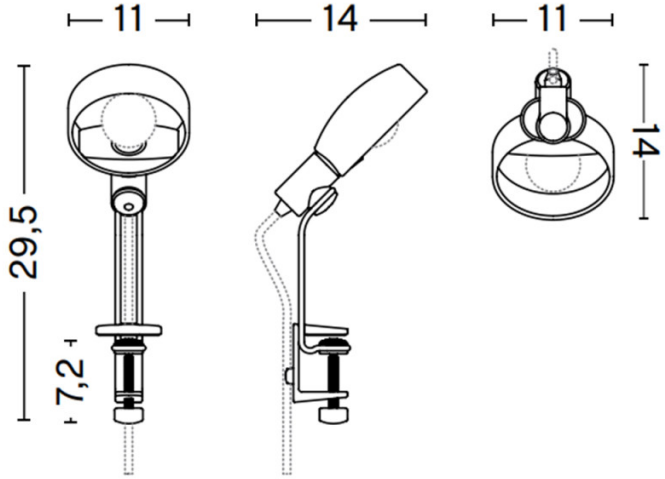

PRODUCT SPECIFICATION
