PRODUCT DESCRIPTION

Designer: John Tree

HAY Cupola Wall Light

Designed by John Tree for HAY in 2024, the Cupola Wall Light provides functional directional lighting without compromising on style. Equipped with a 360° rotating head and pivoting mount, this wall light delivers localised illumination that can be adjusted to suit a wide range of interiors. Its natural anodised finish gives it a contemporary, industrial expression, while the in-line on/off switch makes the light easy to control.

Crafted from durable aluminium, the HAY Cupola Wall Light is a highly functional choice for bedrooms, lounges, offices and other interiors. Ideal as a task or reading light, it can also be positioned to create soft ambient illumination. Display it on its own or pair it with other designs from the **Cupola Collection** for a cohesive lighting scheme.
