PRODUCT DESCRIPTION

Designer: Astro Design Team

Astro Ako 600 Phase LED Wall Light

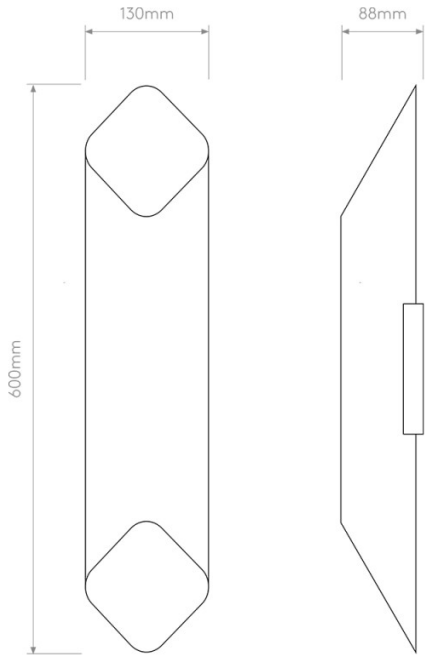

The Astro Ako 600 Phase Wall Light is a striking contemporary fixture that provides both up and down lighting. Its slim, architectural form measures 60cm high and features a matt black or matt white finish with a contrasting gold interior, adding a warm and luxurious touch to interior walls.

The integrated LED delivers 483 lumens at a soft 2700K, filtered through an opalescent polycarbonate diffuser to create a smooth, even wash of light without harsh edges. Easily dimmable via mains phase dimming, Ako allows you to personalise the atmosphere, whether used in hallways, dining areas, or hospitality spaces.

Combining aluminium construction with a refined finish, Ako is both durable and stylish. Its clean proportions and dual-lighting design make it a versatile solution for contemporary interiors seeking a blend of functionality and architectural flair.
