PRODUCT DESCRIPTION

Designer: Francisco Gomez Paz

Vibia Africa LED Portable Table Lamp

Designed by Francisco Gomez Paz, the Vibia Africa LED Portable Lamp is a sculptural take on classic task lighting. Its silhouette is minimalistic, combining smooth shapes and an earthy colour palette, and the conical base ensures a sturdy and stable structure. The Africa Portable is crafted from a single piece of aluminium, with a polycarbonate diffuser which provides a soft but functional downlight onto the surface below - utilising an integrated dimmer on the head of the light which allows you to personalise the illumination depending on your needs.

This Vibia Africa boasts a matt lacquer finish and is available in four colours, all of which can adapt to both living and working environments in both classic and contemporary interiors. The battery lasts for approximately 6.5 hours at a brightness level of 100%, 10 hours at 66% and up to 20 hours at 33%.

PRODUCT SPECIFICATION

Light Source:	4.5W, 2700K, 488 Lumens
