PRODUCT DESCRIPTION

Designer: Lievore, Altherr, Molina

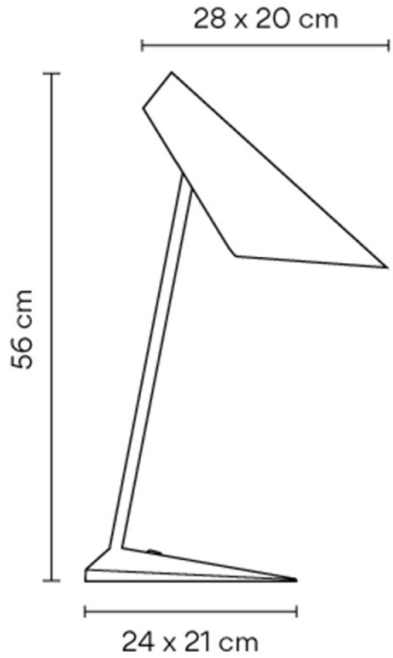

Vibia I.Cono LED Table Lamp

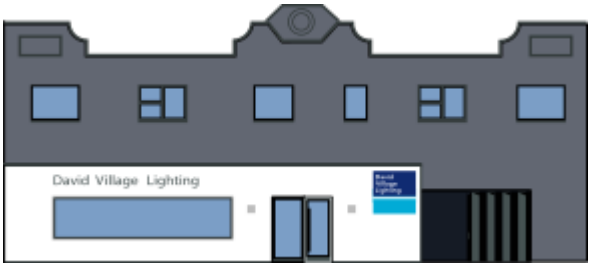

The Vibia I.Cono Table Lamp was designed by Lievore, Altherr, Molina, and is a refined and stylish light which boasts a Scandinavian quality. The table light features a delightfully slender stem which slants inwards and supports a conical shade, exhibiting an elegant silhouette. The minimalistic silhouette adds a contemporary touch to wherever you decide to display it.

The I.Cono table light is the perfect desk companion as the shade is movable to direct the light where needed. Emitting a steady and warm glow, this table lamp can be used on tables, desks and side tables as both a decorative and reading/task light. Available in a variety of finishes, the I.Cono Table Lamp can slip into any design scheme and can also be used alongside other lights from the **Vibia I.Cono collection** for consistent lighting throughout your interior.
