PRODUCT DESCRIPTION

Designer: Verner Panton

&Tradition Flowerpot VP12 Floor Lamp

A 2024 addition to the [&Tradition Flowerpot collection](#), the VP12 Floor Lamp is a minimalistic yet striking lighting solution. A design by Verner Panton, this range of lights has become a prominent feature in Danish design - and the VP12 will be no different, offering sleek and elegant aesthetics and a cosy ambience.

The iconic flowerpot lamp head is prominent, boasting two metal hemispheres, one twice the size of the other, reflecting the lighting output and serving as diffusers for the concealed light source. The result is a diffused but functional downlight that can expertly illuminate hallways, living areas, dining spaces or even bedrooms. Available in four contemporary finishes, it can be displayed individually or alongside other designs in the collection.
