PRODUCT DESCRIPTION

Designer: Norm Architects

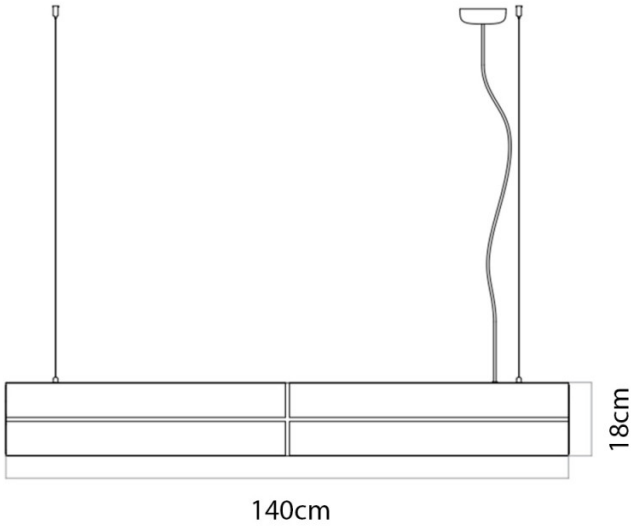

Audo Copenhagen Hashira Linear LED Suspension

A 2024 addition to the collection, the Audo Copenhagen Hashira Linear Suspension boasts a horizontal form that is suspended by slender wires, appearing to effortlessly float in mid-air. Designed by Norm Architects, this suspension light utilises the iconic linen diffuser seen across the range of Hashira lights, offering a peaceful aesthetic and providing ample ambient illumination. This shade is held in place by magnets, eliminating the need for bulky screws and enhancing its clean, modern look.

The Audo Copenhagen Hashira Linear Suspension boasts a replaceable LED light source concealed within its silhouette, emits a warm glow, it bright enough for tasks yet subtle enough to create a relaxing ambience. The illumination can be easily dimmed to suit your needs, and this modern suspension is a beautiful way to brighten up dining rooms, living areas and even contemporary workspaces.
