PRODUCT DESCRIPTION

Designer: Norm Architects

Audo Copenhagen Hashira Ceiling Light

The Audo Copenhagen Hashira Ceiling Light was designed by Norm Architects and is a subtle addition to the lighting collection. Sitting flush against a ceiling, the Hashira Ceiling Light strips the design back to its simplest form, whilst still adding an elegant and contemporary touch to your interior. The light source is diffused through a textured linen shade, resulting in a warm ambient illumination that can be utilised in both residential and commercial spaces.

Due to its unobtrusive silhouette, the Audo Copenhagen Hashira Ceiling Light is a perfect addition to hallways, entryways, living rooms and bedrooms. It can also add a stylish touch of Danish design to commercial spaces such as hotels, restaurants, bars, reception areas and spas, providing ample diffused illumination. Providing practicality and style.
