PRODUCT DESCRIPTION

Designer: Ramos & Bassols

Vibia Duo Petra Dome LED Ceiling Light

Vibia Duo Petra Dome LED Ceiling Light offers a timeless and elegant look, with an interior slate lining that sets it apart from other Vibia Duo fittings. Designed by Ramos and Bassols, it brings together a bold metallic exterior and an inner surface of natural texture, using a simple dome geometry to provide direct but diffused illumination.

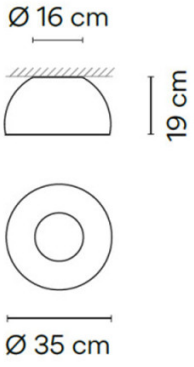

The standard dome keeps the fitting straightforward and usable, which is part of its appeal. It gives a comfortable level of general light and works well in rooms where you want something more substantial than a flush fitting, but where a pendant would not make sense. The shape throws light downward in a clear, even way, without feeling severe.

Vibia Duo Petra Dome LED Ceiling Light is available in White, Graphite, and Cream. It sits between the angled and round versions, offering a classic dome silhouette with the same material contrast and understated finish. Best suited for living rooms, bedrooms, hallways, and other interiors with lower ceilings where a direct but comfortable ceiling light is needed.

Please note, this product is also available in a larger Ø70cm version. Contact us for pricing and information.
