Fritz Hansen Caravaggio Matt Pendant

The Fritz Hansen Caravaggio Matt Pendant is a part of the iconic [Caravaggio collection](#) that was originally launched in 2005, designed by Cecilie Manz. Its silhouette resembles a bell, crafted from metal and encapsulating the light source. This design of the Caravaggio expertly prevents glare thanks to the depth of the shade, and a small opening at the top helps to illuminate the suspension cable, resulting in a more even dispersion of light.

The matt finish of the Fritz Hansen Caravaggio Pendant creates an elegant aesthetic no matter where it is displayed, allowing you to choose between seven finish options and various sizes. The Matt Caravaggio can be displayed individually or in clusters and linear rows of numerous sizes in residential and commercial environments.
